

## Attachment C

All records described below are covered by this disposal suspension notice:

1. Any and all records relating to the use of ammonia, ammonia chemistry or ammonia compounds, in cigarette manufacturing or processing.
2. Any and all records relating to the effect of ammonia, ammonia chemistry to ammonia compounds on tobacco, cigarettes or cigarette smoke.
3. Any and all records relating to nicotine delivery or "impact" of cigarettes or cigarette smoke.
4. Any and all records relating to the correlation between nicotine and product sales.
5. Any and all records relating to the leaf blending process and nicotine levels in cigarettes or cigarette smoke.
6. Any and all records dated from January 1, 1984 to the present:
  - (a) created by INBIFO, its employees, officers or agents, and records created by Philip Morris, its employees, officers or agents while working for or at INBIFO;
  - (b) created by Philip Morris, its employees, officers or agents and sent or delivered to INBIFO;
  - (c) identified as indices, tables or lists, including shipping invoices and other shipping records, currently or previously maintained by Philip Morris, of records received from, or transmitted directly or indirectly to, INBIFO, its employees, officers or agents.
7. Any and all records relating to the policy, procedure, requirement or methodology for measuring the alkaloid or nicotine content of tobacco and/or tobacco by-products, including but not limited to, tobacco stems, particles, dust, slurry or sheet, at any point during the cigarette blending or manufacturing process.

8. Any and all records or research relating to the taste, impact, flavor, aroma or other physiological effects of nicotine, including but not limited to:
  - (a) research conducted by the flavor development or flavor research group;
  - (b) research using nicotine as a gas or aerosol;
  - (c) research conducted by Dr. Robert Ikeda, Frank Daylor and/or Howard Speilberg;
  - (d) research conducted using the olfactometer and/or electroencephalograph (EEG) on human subjects.
9. Any and all records, testimonial statements, exhibits, reports and/or correspondence, submitted by Philip Morris, its employees, officers or agents to the Congress of the United States of America or any subcommittee thereof, from January 1993, to the present, regarding any committee, subcommittee, member or staff inquiry or request.
10. Any and all records relating to Dr. Victor DeNoble (Dr. DeNoble), including but not limited to:
  - (a) Dr. DeNoble's personnel file;
  - (b) records relating to Dr. DeNoble's employment, termination of his research activities and/or termination of his employment with Philip Morris;
  - (c) records relating to any aspect of research, studies, or other reports, conducted, prepared or supervised by Dr. DeNoble;
  - (d) records of meetings attended by Philip Morris, its officers, employees or agents relating to Dr. DeNoble, his employment, termination, any aspect of his research or work;
  - (e) records of meetings between Dr. DeNoble and Philip Morris, its officers, employees or agents.
11. Any and all memoranda issued March 20, 1996 by Geoffrey C. Bible to employees relating to the manipulation or control of nicotine and any and all records relating to the foregoing memoranda.
